SUMMARY OF QUALIFICATIONS

Analyst with a Master of Science in Health Informatics and 3+ years of experience analyzing healthcare and member-focused data to monitor costs and trends, evaluate program effectiveness, and identify areas of improvement to support data-driven decision-making. Experienced in SQL for data extraction and statistical evaluation, with hands-on proficiency in Power BI, Excel, and PowerPoint to produce well-documented reports, dashboards, and presentations for technical and non-technical stakeholders.

TECHNICAL SKILLS

Programming Languages: SQL, Python

Database: SQL Server, Databricks, BigQuery, MySQL

Software: Power BI (DAX, Power Query), SSMS, Excel, Visio, VS Code, SAS JMP

Methodologies: Data Storytelling, Data Modeling, Root Cause Analysis, Process Improvement, Requirements Analysis

RELEVANT EXPERIENCE

Business Analyst Associate

Austin, TX

Teacher Retirement System of Texas

September 2024 - Present

- Led the end-to-end design and delivery of an integrated Power BI dashboard for the Chief of Administrative Services, architecting a semantic model that consolidated four business units into department-specific pages and a unified executive view.
- Identified a gap in Qualtrics-to-Power BI integration and scoped an API-based solution using Databricks, partnering with IT to implement the pipeline, then building the Power BI semantic model and dashboards for stakeholder reporting.
- Own the annual TRS member satisfaction survey process, from cross-functional requirements gathering and survey design in Qualtrics through quality testing and vendor oversight, with final findings presented to the TRS Board of Trustees.
- Built a Power BI dashboard tracking Ombuds caseload, complaint categories, and member communication trends for use by the Ombuds Office and in Board of Trustees reporting.
- Designed a Qualtrics-based intake and case management system for the TRS Ombuds Office, embedding forms on the TRS public website and migrating legacy Access workflows to centralized ticketing, including a walkthrough and onboarding for the new platforms.

Business Development Reporting Analyst Intern

Orlando, FL

Orlando Health

May 2024 – Aug 2024

- Developed complex SQL queries to clean and transform 94,500+ Epic EHR records, joining disparate billing tables and engineering analytical features, such as scheduling accuracy flags, to identify a \$64,000 monthly revenue opportunity.
- Evaluated the operational impact of a Work Queue system implementation across Orlando Health's radiology department, identifying a 1.3 percentage point improvement in insurance payment rates and \$16.96 higher average reimbursement per case.
- Reduced claim denials by identifying root causes of premature patient bookings through a workflow analysis segmented across 8 imaging modalities and 73+ insurance payers, contributing to 251 additional paid claims per month

Member Information Specialist

Orlando, FL

Exos

June 2022 – Feb 2024

- Built and maintained Power BI dashboards with DAX measures and Power Query transformations to track population health KPIs, giving business units visibility into member outcomes, utilization trends, and program performance.
- Analyzed health program datasets using advanced Excel (pivot tables, VLOOKUP, statistical functions) to monitor member engagement patterns, identify churn drivers, and evaluate program cost-effectiveness, informing strategies that improved program efficacy by 25%.
- Identified areas of opportunity through data-driven analysis of engagement metrics, recommending and implementing evidence-based member incentive programs that increased participation by 15%.

Release of Information Specialist

Verisma

Orlando, FL

Jan 2023 – Aug 2023

- Interpreted medical records and legal authorizations to manage 1,000+ monthly PHI disclosures, maintaining 100% HIPAA/HITECH compliance through rigorous quality control and audit processes.
- Navigated complex health information systems (Epic EHR) to accurately extract and organize documentation for legal and insurance stakeholders, ensuring all requests were processed in a timely and efficient manner.
- Managed a high-volume daily workload of 50+ ROI requests, utilizing Jira for workflow tracking and status updates to provide timely, professional communication to healthcare stakeholders.

EDUCATION

Nova Southeastern University

Davie, FL

Master of Science, Health Informatics

Aug 2024

Emphasis, Data Analytics

Major GPA: 3.8/4.0

Relevant Coursework: Database Systems in Healthcare, Fundamentals of Data Analytics, Basic Skills for Clinical Analytics, Computational Informatics, Systems Analysis and Design for Healthcare

University of Central Florida

Orlando, FL

Bachelor of Science, Kinesiology

Dec 2021
